December 14, 2006

Dear Student and Family,

Next Tuesday, December 19, the second grade classes will have our curriculum party. To go with our nutrition unit, we will sample various foods from around the world. We will also play some games to extend our learning about nutrition. Throughout this unit, students should be learning more about making good choices to be healthy.

If you are someone who frequently visits our class website, you may have noticed some changes. I have been playing around with a different design for the website. Unfortunately, this means that some links are not working properly. My goal is to have the switch to the new format completed by the end of winter break.

~ Mr. Derby

Person of the Week

Erin

I am named from a TV character from the Waltons, an old time show my mom liked. Also, my dad wanted an Irish name. Erin means Ireland, or peaceful. I have a twin sister named Brenna. My favorite food is ice cream. I visit family in Niagra Falls, Canada every summer. I participate in Karate, archery, rock climbing, soccer, and basketball. I love to do arts and crafts.

IMPORTANT INFORMATION

- Homework Due Tomorrow:
 - **Math:** HomeLinks 5.2 (Attributes) and 5.5 (Parallel Line Segments)
 - **Spelling:** Long o - spelled o, oa, ow. Write each word two times neatly.
 - **Nutrition Record:** Write what you eat Tuesday, Wednesday, and Thursday
- Second Quarter Ends - December 22
- Winter Break - December 25 to January 5

Geometry Assessment

This week we completed Unit 5 of our math curriculum, which is a study of geometry. Concepts covered include polygons, 2-D and 3-D shapes, attributes of shapes, line segments, parallel lines, and symmetry. In this week's folder you will find an assessment for this math unit.

Next Week's Homework
